

## **Why does an accountant need a Virtual PA?**

For first class professional & administrative support for your business.

[Enquire today](#)

There is more to high-quality bookkeeping than just maintaining balance sheets, invoicing, and monitoring bank statements.

As an Accountant, you can quickly get tied up in the every day flow of your operation.

### **We have found that many Accountants face the following problems:**

- Overworked - Some Accountants have a large number of clients; their clients eat up their time which means extra hours of work every day or week.
- Demanding clients - Those particular clients who send you their bookkeeping one day and want it back the next.

We have 9 Accountants that we work with, and have done for 10 years now.

### **Here are some of the solutions we came up with:**

We use Sage, Xero and Excel in our accounting packages, plus a number of bespoke packages also.

This means it's extremely easy for us to tap right into your workflow.

We can do as little or as much as you want us too but ALL CONFIDENTIALLY.

### **We can:**

- Analyse bank statements, categorise them and produce financial reports on your behalf.
- We can maintain your schedule and take on some of the daily tasks.
- We can answer phone calls on your behalf.
- All of our dealings with your material remain in strictest confidence.

### **In conclusion...**
